Upgrading Status
- Complex **Hacking** action
- Superior success upgrades 2x steps
- Does not erase previous logs, but harder to locate attacker.

Hidden
System unaware. No Logs.
+10 to subvert.

Covert
System aware.
Does not consider threat.

Spotted
System considers threat.
Launches CM. **Active alert**.

Downgrading Status
- **Critical failure** during any **Infosec** causes **Spotted**.
- **Zero In** (Infosec vs. Infosec) by system defender (-30 if attacker hidden). If successful causes **Spotted**.
